

Advancing Medical Textile Solutions

In the medical industry, precision, safety, and comfort are essential. Acme Mills brings over a century of expertise in industrial textiles, delivering innovative solutions designed to meet the strict demands of **healthcare environments** and medical manufacturing.

Our **advanced textile solutions** enhance hygiene, durability, and protection, ensuring optimal performance across a variety of healthcare applications. From antimicrobial fabric solutions to fluid-resistant barriers, our materials are designed to support both patient care and medical professionals.

Medical Textile Capabilities

PROTECTIVE TEXTILES

High-performance fabrics for PPE, surgical drapes, isolation gowns, and wound care products.

PATIENT COMFORT SOLUTIONS

Soft, breathable, and durable textiles for hospital bedding, patient gowns, and privacy curtains.

STERILE AND ANTIMICROBIAL MATERIALS

Designed to inhibit bacterial growth and support infection control protocols.

CUSTOM TEXTILE ENGINEERING

Tailored fabric solutions designed to meet specific medical industry standards and performance requirements.

Why Choose Acme Mills?

- ✓ **Proven Expertise:** Over a century of experience in industrial textiles, delivering solutions that meet rigorous medical standards.
- ✓ **Innovative Technology:** Advanced fabric treatments and engineering techniques to enhance material performance.

- ✓ **Custom Manufacturing:** Bespoke textile solutions designed to meet the unique needs of healthcare applications.
- ✓ **Regulatory Compliance:** Our products meet or exceed medical industry regulations for safety, hygiene, and durability.
- ✓ **Sustainability Commitment:** Environmentally responsible textile solutions designed to support healthcare industry sustainability goals.

Applications for the Medical Industry

- ✓ **Protective Medical Textiles** – Antimicrobial fabric solutions and liquid-resistant fabrics for PPE and hospital environments.
- ✓ **Patient-Centric Textiles** – Comfortable, breathable medical patient gown material for patient wear and bedding.
- ✓ **Medical Manufacturing Materials** – Durable textiles used in medical equipment and device applications.
