## Advanced Filtration Solutions for Industrial and Manufacturing Applications

OPTIMIZED FILTRATION FOR INDUSTRIAL AND MANUFACTURING PROCESSES

Great Lakes Filters, a division of Acme Mills, specializes in high-performance filtration solutions designed to improve efficiency, air and liquid quality, and workplace safety. With a strong focus on technical fabrics and custom-engineered filtration products, we provide industries with reliable solutions tailored to their unique operational needs.

Comprehensive Filtration Capabilities

LIQUID FILTRATION
Custom-engineered filter media for water, oil, and chemical processing applications.

AIR FILTRATION
High-efficiency systems designed to remove particulates, improve air quality, and support regulatory compliance.

DUST & PARTICULATE CONTROL
Advanced filtration fabrics that enhance workplace safety by capturing fine particles in industrial environments.

TECHNICAL FABRICS FOR FILTRATION
Durable, high-performance materials for demanding filtration applications.

Why Choose Great Lakes Filters?

- **Custom Solutions:** Tailored filtration products to address industry-specific challenges.

- **Industry Expertise:** Decades of experience in filtration and technical fabrics.

- **Efficiency and Reliability:** Products designed to optimize filtration performance while reducing operational downtime.

- Environmental Responsibility: Sustainable filtration solutions that support eco-friendly manufacturing and industrial processes.

Superior Filtration Solutions for Industrial Operations

Great Lakes Filters provides the expertise and technology necessary to enhance industrial and manufacturing operations with superior filtration solutions.
